Institute of Technical Education and Research, SOA University, Bhubanswar
Completed in 2021

Professional Experience

Acadecraft Private Limited | Content Developer (1 Year Exp)

Key responsibilities:

Proficiently employed JavaScript, HTML, and CSS to craft compelling web content, including interactive chemical reaction simulations. Leveraged these technologies to design engaging figures that, upon user interaction, dynamically showcased chemical reactions, enhancing the overall content quality and user experience.

Full Stack Web Developer (6 Months Exp)

Description: Front-end developer with 6 months of hands-on experience specializing in React and JavaScript. Adept at creating responsive and user-friendly web applications. Successfully completed projects such as Admin Dashboard, youtube clone, OverStock clone, and Plant Order clone.

Projects

Admin Dashboard 🐙🌐

- Description: Built an Admin Panel with User Management, Data Visualization, Task Tracking, Analytics, Notifications, and Customization.
- Tech Stack: React, Tailwind CSS, Syncfusion
- Key Features: Dynamic data visualisation, content management, efficient task tracking, and intuitive drop-down editing.

Full Stack E-commerce 🐙🌐

- Description: Features dual authentication, JWT login, and Firebase integration with email OTP password resets. Enforces required logins for purchases and sends email receipts for transactions.
- Tech Stack: Node.js, Express.js, Mongo DB, React, Redux, Firebase, JWT, Password hashing.
- Key Features: Dual Authentication, Email OTP Password Resets, Mandatory Logins, Automatic Email Receipts.

Youtube Clone 🐙🌐

- Description: Developed a YouTube clone with core features like commenting, channel subscriptions, Google authentication, a homepage with recommended videos, categorized videos, and an easy content search.
- Tech Stack: React, Redux, API integration, Firebase, Chakra UI, Bootstrap
- Key Features: Video search, video playback, authentication, comment system, functionality.
