Professional Summery

Aspiring full stack developer with a passion for developing scalable web applications and learning across the full stack. Proficient in HTML, CSS, JavaScript, and React for creating intuitive and interactive user interfaces.

Professional Experience

Acadecraft Private Limited | Research Analyst (1 Year Exp)

Key responsibilities:
Proficiently employed JavaScript, HTML, and CSS to craft compelling web content, including interactive chemical reaction simulations. Leveraged these technologies to design engaging figures that, upon user interaction, dynamically showcased chemical reactions, enhancing the overall content quality and user experience.

React Front-end Developer (6 Months Exp)

Description: Front-end developer with 6 months of hands-on experience specializing in React and JavaScript. Adept at creating responsive and user-friendly web applications. Successfully completed projects such as youtube clone, OverStock clone, and Plant Order clone.

Projects

Youtube Clone

- Description: Developed a YouTube clone with core features like commenting, channel subscriptions, Google authentication, a homepage with recommended videos, categorized videos, and an easy content search.
- Tech Stack: React, Redux, API integration, Firebase, Chakra UI, Bootstrap
- Key Features: Video search, video playback, authentication, comment system, functionality.

Plant Order Clone

- Description: Created a responsive plant order clone enabling users to browse and purchase plants with ease.
- Tech Stack: HTML, CSS, JavaScript
- Key Features: Interactive product catalog, shopping cart, API checkout process.

Overstock Clone

- Description: Developed an e-commerce platform similar to Overstock, offering users a seamless shopping experience.
- Tech Stack: HTML, CSS, JavaScript
- Key Features: Product listings, shopping cart, secure payment gateway.
